

The Arc Endorses Main Mobility's AdaptaVan

July 28, 2009

The Arc of the United States (The Arc) is pleased to announce the exclusive endorsement of Main Mobility's AdaptaVan™ for the transportation needs of our 750+ chapters. The Arc strives to forge partnerships with organizations that share The Arc's mission to enhance the lives of people with disabilities.

The AdaptaVan is built on the Chevrolet Express or GMC Savana 3500 passenger chassis that provides unequalled safety, comfort, fit, and finish for consumers/clients – benefits not found in cargo van conversions!

Main Mobility earned The Arc's exclusive endorsement because of their proven track record of success working with our chapters. Connie Van Steenburg of ACHIEVE (NYSARC Inc. Broome-Tioga Counties chapter) has this to say about Main Mobility and the AdaptaVan:

“Our agency has been purchasing conversion vans from Main Mobility for several years and they have been extremely reliable. Their sales team works with me to make sure that the design for each vehicle is correct and their workmanship is outstanding. When we purchase an AdaptaVan, we know that we are getting a safe, reliable and durable vehicle as well as the best value for our organization's money.”

Main Mobility, headquartered in Clarence, New York, has served our community for over 25 years; they have held the New York State Office of Mental Retardation and Developmental Disabilities (OMRDD) contract for the past 15 years. Many of New York's chapters are their customers.

In addition, Main Mobility was instrumental in helping The Arc develop an exclusive special pricing agreement with General Motors that enables chapters to receive a substantial discount on chassis purchases. This Community Assistance Pricing (CAP) program is a one-of-a-kind agreement between GM and The Arc.

You will soon receive a comprehensive informational packet in the mail that explains the features and benefits of the AdaptaVan.

For more information, please visit their [website](#) or contact Richard Middaugh at 866-759-6811 x108.
